KISS principle (**Keep it Short and Simple** / Пиши коротко і просто), який увійшов у практику ефективної комунікації після запровадження у 60-х роках минулого століття у військово-морських силах США і передбачав, що чим простішою є система, тим вона надійніша, тобто передбачав уникнення непотрібного ускладнення систем (оригінальна версія цього принципу – **Keep it simple, stupid**).

PART D – GLOSSARY OF TERMS

PART A – GENERAL INFORMATION ABOUT THE ERASMUS+ PROGRAMME

Erasmus+ is the EU Programme in the fields of education, training, youth and sport for the 2021-2027 period. Education, training, youth and sport are key areas that support citizens in their personal and professional development. High quality, inclusive education and training, as well as informal and non-formal learning, ultimately equip young people and participants of all ages with the qualifications and skills needed for their meaningful participation in a democratic society, intercultural understanding, and the successful transition to the labour market. Building on the success of the programme in the 2014-2020 period, Erasmus+ strengthens its efforts to increase the number of opportunities offered to even more participants and to a wider range of organisations, focusing on the qualitative impact of the Programme and contributing to more inclusive and cohesive, greener, and digitally fit societies.

European citizens need to be better equipped with the knowledge, skills and competences necessary in a dynamical and changing society that is increasingly mobile, multicultural and digital. Spending time in another country to study, to learn and to work should become the standard, and the opportunity to learn two other languages in addition to one's mother tongue should be offered to everyone. The Programme is a key component supporting the objectives of the European Education Area, the Digital Education Action Plan 2021-2027, the European Union Youth Strategy and the European Union Work Plan for Sport (2021-24).

As the COVID-19 pandemic has shown, access to education is proving, more than ever, to be essential to ensuring swift recovery from crises, while promoting equal opportunities for all. As part of this recovery process, the Erasmus
